WHAT WE STAND FOR

Understanding the economy of the future

Handelsblatt

'The world is facing a decade of profound change: Artificial intelligence, the green transformation of the economy and demographic change will transform business models, companies and the lives of millions and millions of people. This harbours huge opportunities. At the same time, it is becoming increasingly clear that the problems of the future can no longer be solved with the recipes of the past, especially in times of geopolitical tensions. In Handelsblatt Online, we analyse all these developments, provide orientation and classify them.'

Sebastian Matthes - Editor-in-Chief
